

Video inspection machine Vvm series

- Easy to operate
- CNC and manual version available
- High accuracy optical scale measuring system.
- Manual movement of measuring carriage for manual machine
- Touch probe option for z dimension available
- High resolution camera and LCD monitor
- Joy stick movement for cnc machine
- Software controlled LED ring light
- Auto focus option for CNC machine
- Optional motorized zoom lens for cnc machine
- Part view, part DXF export , report printing, dimensioning, programming facilities
- Profile part tracing
- video edge detection

Specifications

Measuring range	200*100*150mm
Working distance	70mm
Resolution	0.0005mm
Maximum permissible error	$93+(L(\mu\text{m})/100)=\mu\text{m}$
Repeatability	$\geq 2\mu\text{m}$
Camera	800*600
Collimated Led ring light	usb software controlled
Operating temperature	10° to 40°C
